CODING COMPETITION

EPÌLYSI: A PROBLEM TO SOLVE

"Coding is other type of magic"

The new-age IT-Gen is growing swiftly to make its place in the corporate world. Programming & coding have become effective tools to solve real-life practical problems. Having a sense of this new age demand; Tech-Nexus brings to you one of the greatest & brainstorming coding competitions of the year; Epìlysi: A problem to solve. Epìlysi will provide a platform where a logical approach will make the difference and participants would get to apply their knowledge to solve actual problems. As a result, we kindly encourage all coding enthusiasts to be a part of this historic event. Winners will be benefited with cash prizes & goodies, and fame will be a follower!
